

## Task 2

Think about what you know about animal, plant and bacterial cells.

1. Write a comparison of animal and plant cells.
  - How are they similar?
  - How do they differ?
  - Can you draw and label a diagram of each?

## Year 12 transition - Biology

2. Write a comparison between bacterial cells and eukaryotic (e.g. animal and plant) cells.
  - How are they similar?
  - How do they differ?
  - Can you draw and label a diagram of a bacterial cell?
