

Chesterton Community College

Geography Homework

Years 7, 8, 9

Geography homework tasks are designed to:

- Prepare your child for future topics.
- Help your child recall knowledge from past topics.
- Help your child revise for assessments.

Instructions for active homework tasks appear on **EduLink**. You can check these homework tasks given to your child using EduLink.

Most homework tasks are quizzes in the 'Homework' channel on **Teams**. They are often focused on map skills and maths skills. Sometimes they are focused on 'core knowledge' from previous topics that is relevant for future topics.

Some homework tasks are assignments in the 'Homework' channel on **Teams**. They are often focused on exploring career paths linked to recent lessons. Sometimes they are custom activities created by teachers to best support student progress.

If your child has any problems completing their homework they must speak with their Geography teacher on the school day before it needs to be completed.

If you have any general questions about Geography homework, please email jmoore@ccc.tela.org.uk. If you have any questions about specific homework tasks given to your child, please contact their class teacher.
