

## 14<sup>th</sup> Century Disaster Vocabulary Terms

Term	Definition	Image
1. Plague	A contagious bacterial disease characterized by fever typically with the formation of buboes	
2. Bubonic plague	The more common plague and was carried in the bloodstream of rats. Fleas bit the rats and became infected. They then hopped onto other rats or humans, bit them and passed on the disease.	
3. Pneumonic plague	The less common plague, but more deadly. It was caught by breathing in the germs released when an infected person coughed or sneezed.	
4. Barber Surgeon	They were essentially barbers who also performed basic surgical procedures. This dual role arose because university-trained physicians of the time largely avoided surgery.	
5. Miasma	Bad smelling air makes you sick. People believed that most diseases were caused by bad air. Germs had not been discovered yet.	
6. Four Humours	ancient and medieval medicine, proposed that the human body is composed of four essential fluids or "humours": blood, phlegm, yellow bile (also called choler), and black bile (also called melancholy).	
7. Chivalry	A code of behaviour for medieval knights, emphasising bravery and good manners	
8. Heraldry	It's a system of symbols and visual representations used to identify individuals, families, organizations, and even cities, originally for identification on the battlefield.	
9. Dysentery	An intestine infection that gives you diarrhoea with blood in it which was very deadly for Medieval Kings during the Middle Ages.	
10. Revolt	To take violent action against an established government or ruler; rebel.
